November 2nd-3rd Full conference at Duquesne University

THE ISPS-US MISSION

We are the International Society for Psychological & Social Approaches to Psychosis – US Chapter

ISPS-US promotes psychological and social approaches to states of mind often called "psychosis" by providing education, training, advocacy, and opportunities for dialogue between service providers, people with lived experience, family members, activists, and researchers.

What we do

- We bring together a nationwide membership network of clinicians, peer workers, academics, people with lived experience, family members, and other supporters
- Facilitate educational, thought-provoking, and inspiring webinars
- Host an annual conference
- Provide discussion groups, book clubs, creative online sharing space, etc.
- Advocate for systemic change within the mental health system
- ISPS International publishes
 - The journal "*Psychosis: Psychological, Social and Integrative Approaches*"
 - The ISPS book series

About the Conference

Audience Profile:

- Diverse group of professionals, advocates and allies: psychiatrists, psychologists, nurses, social workers, counselors, therapists, psychologists, peer recovery specialists, researchers, people with lived experience, and family members
 - Hailing from a wide variety of organizations including healthcare, higher education, advocacy organizations, private practice, and other non-profits
 - Geographically diverse, from attendees local to Pittsburgh, to across the USA and globe, thanks to ISPS's international reach and the hybrid format
-

Partnerships

Be part of an exceptional marketing opportunity at this premier annual gathering of mental health professionals, advocates, and allies.
